### TO WHOM IT MAY CONCERN

#### Recommendation Letter

I have known **Mr. Amir Shahzad** since 2022. Amir served as a Trustee of Bazm-e-BME (a professional society of Biomedical Engineers having more than 1250 members), from September 2022 to present. During his tenure, he demonstrated a deep commitment to uplifting biomedical engineering education, research, and healthcare systems in Pakistan by organizing and participating in networking events and by mentoring undergraduate students. He possesses strong leadership, social networking, problem-solving, management, and communication skills, and I acknowledge his dedication and expertise. I strongly recommend him for postgraduate programs/internship positions related to biomedical engineering. I wish him all the best for his future endeavours.

Please do not hesitate to contact me if you require any additional cooperation or information.

Sincerely,

**Engr. Syed Saim Gardezi**

Founder of Bazm-e-BME
